SOLUTIONS

INTRODUCTION

SMART PACKAGING

for pet care products

Today's pet care market is evolving fast. From nutritional supplements and daily wellness products to specialist shampoos, sprays and grooming treatments, **pet owners increasingly expect the same standards of quality**, safety and presentation they would demand from products designed for themselves.

> For pet care brands, that means packaging matters more than ever.

PACKAGING MATTERS

At Pont Packaging Group, we help manufacturers across Europe find packaging solutions that **protect formulations, support practical dispensing and create a clean, professional shelf presence.**

Whether you are packing tablets, capsules, powders, liquid supplements, shampoos or grooming treatments, our extensive range of glass and plastic bottles, jars and compatible closures **offers a reliable packaging solution for every application.**

With food-grade materials, sustainable options, technical support and fast European supply, **Pont provides pet care packaging designed to perform from filling line to end user.**

SUPPLEMENTS, TREATS & POWDERS

RANGE

FROM VITAMINS TO DOG TREATS

SUPPLEMENTS, TREATS AND POWDER *solutions*

Packaging designed for **pet wellness and nutritional products**.

From daily vitamins and soft chews to nutritional powders, calming supplements and functional treats, today's pet wellness products require packaging that protects product integrity while delivering the quality and reassurance pet owners expect.

Products in this sector are often used daily and need packaging that supports freshness, convenience and easy dispensing, whilst providing a professional shelf-ready appearance. The right packaging solution must therefore offer product protection, practical access, secure closure options and strong branding potential to help products stand out in a growing and competitive market.

Cylpacker jar (pet)

Roundpacker

A wide range of products suitable for:

- ✓ Tablets
- ✓ Capsules
- ✓ Soft chews
- ✓ Nutritional powders
- ✓ Functional treats
- ✓ Daily wellness supplements

Pont Packaging Group supplies a **wide range of jars, containers and pouches suitable for supplements, powders and treats, with compatible closures, tamper-evident options and sealing liners available.**

Whether your focus is premium presentation, practical convenience or sustainable material choices, we help you find the right packaging solution.

> With a variety of compatible closures and sealing liners available to support freshness and product security.

PETPACKER PET

For everyday pet wellness products

The petpacker range provides a dependable and highly versatile packaging solution for pet care brands requiring practical, retail-ready containers for tablets, capsules, powders and soft chew supplements.

Its classic cylindrical form combines strong filling efficiency with excellent product accessibility, while the lightweight PET construction offers durability, clarity and ease of handling throughout the supply chain. Available across a wide range of capacities, petpacker is particularly suited to daily-use pet vitamins, mobility supplements, calming chews, dental tablets and powdered nutritional blends.

Petpacker specs

- Key features:**
- ✓ Trusted PET supplement container for a broad range of dry products
 - ✓ Wide capacity range for flexible product volumes
 - ✓ Lightweight and durable with strong shelf-ready clarity
 - ✓ Ideal for tablets, capsules, powders and soft chew supplements
 - ✓ Compatible with multiple closure, liner and tamper-evident options

> Available in multiple capacities with a wide range of compatible closure and liner options, the Cylindrical Jar is a dependable choice for both retail and specialist pet care packaging.

CYLINDRICAL JAR PET

Wide-neck jars for pet supplements, powders & treats

The PET Cylindrical Jar range offers a clean, modern and highly adaptable packaging solution for premium pet wellness products across a wide variety of dry applications.

Designed with smooth continuous lines and a generous wide-mouth opening, these jars allow efficient filling, easy scooping and convenient end-user access, making them ideal for tablets, capsules, soft chews, powders, nutritional toppers and reward treats.

The transparent PET finish provides excellent product visibility while creating a professional shelf-ready appearance, and the broad labelling area allows clear branding and product communication.

Key features:

- ✓ Wide-neck PET jar for easy filling, scooping and repeated use
- ✓ Clean cylindrical shape provides excellent labelling area
- ✓ Ideal for tablets, powders, capsules, treats and nutritional products
- ✓ Lightweight food-grade PET with strong on-shelf visibility
- ✓ Compatible with multiple tamper-evident closure and liner options

 - ✓ Also available in bio-based HDPE for reduced environmental impact

➤ With multiple closure and liner combinations available, Cylpacker provides a flexible packaging solution for modern pet wellness ranges.

CYLPACKER JAR PET

Packaging for premium pet wellness products

The Cylpacker Jar offers a modern evolution of traditional supplement packaging, combining a sleek cylindrical silhouette with crystal-clear PET for strong product visibility and standout shelf appeal.

Designed for premium pet vitamins, soft chews, calming tablets, dental supplements and nutritional powders, Cylpacker delivers a clean, professional presentation while remaining highly practical for both filling and everyday use.

Its wide-neck opening allows easy product access, while the smooth body shape creates generous space for bold branding and clear product information.

- Key features:**
- ✓ Sleek modern PET design for premium shelf presentation
 - ✓ Crystal-clear finish enhances product visibility and brand appeal
 - ✓ Wide opening for easy filling and convenient repeated use
 - ✓ Ideal for tablets, soft chews, powders and nutritional supplements
 - ✓ Compatible with multiple closures, liners and sealing options

> Substantial on-shelf presence, helping premium pet wellness brands deliver both practicality and quality.

ROUNDPACKER HDPE

For larger pet supplements and nutritional blends

The Roundpacker range is a practical wide-neck HDPE container designed for premium pet care products that require generous fill volumes, easy dispensing and a strong retail-ready appearance.

Its broad cylindrical profile makes it particularly suitable for larger tablets, soft chews, powdered supplements, nutritional toppers and reward treats, while the wide opening allows simple filling and convenient repeated product access for the end user.

Manufactured from lightweight food-grade HDPE, Roundpacker combines durability with excellent product visibility.

- Key features:**
- ✓ Ideal for powders, soft chews, tablets and nutritional treats
 - ✓ Broad body profile offers excellent branding and labelling space
 - ✓ Lightweight food-grade HDPE with strong product visibility
 - ✓ Compatible with multiple closure and sealing liner solutions

Helping premium pet care brands deliver a trustworthy and high-value product image.

CYLINDRICAL PILL CONTAINER PET

Tall premium containers for daily pet wellness supplements

The Cylindrical Pill Container offers a sleek, upright packaging format designed for premium pet supplements that benefit from a clean, healthcare-inspired presentation.

Its tall elegant silhouette creates a refined shelf presence while remaining highly practical for tablets, capsules, soft chews and daily nutritional products. The narrower body profile also makes it ideal for measured-dose wellness ranges where controlled portion presentation and easy handling are important.

Manufactured from food-grade PET with a glossy professional finish, the Cylindrical Pill Container combines modern appearance with lightweight durability.

Key features:

- ✓ Tall elegant PET format for premium supplement presentation
- ✓ Ideal for tablets, capsules, soft chews and daily dose products
- ✓ Slim body profile offers practical handling and efficient storage
- ✓ Glossy food-grade finish with matching cap options available
- ✓ Also available in recycled PET for more sustainable packaging

➤ Its extensive capacity range also gives pet care brands flexibility across both smaller daily supplements and larger volume nutritional products.

SECURIPAC HDPE

High-security packaging for protected pet products

The Securipac range is designed for premium pet supplements and specialist nutritional products that require an added level of product security, freshness protection and consumer reassurance.

Manufactured in durable white HDPE, Securipac combines a strong healthcare-style appearance with practical wide-neck accessibility, making it ideal for tablets, capsules, powders, soft chews and sensitive nutritional formulations.

Available with tamper-evident closure compatibility, this trusted packaging format helps protect contents throughout storage, transport and repeated use, while presenting a clean, professional finish that reinforces product quality.

> Combining high barrier protection, premium print quality and recyclable material options, Stand Up Pouches offer a practical and eye-catching solution for modern pet care brands.

Example pack

STAND UP POUCHES PE/PP

Recyclable pouches for treats, supplements & dry food

Pont's Stand Up Pouch range offers a flexible, lightweight and highly effective packaging solution for a wide variety of pet care products. Suitable for treats, supplements, powders, dry food and specialist nutrition products, the range combines excellent product protection with strong shelf appeal.

Designed with a high barrier structure, these pouches help protect products from oxygen, moisture and light, supporting freshness and shelf life throughout the supply chain. The resealable zipper closure provides added convenience for pet owners, while the plow bottom design ensures the pouch remains stable and shelf ready.

Available in recyclable monomaterial PE and premium PP options, the range supports brands seeking packaging solutions that align with evolving retailer and regulatory requirements. High quality digital printing delivers vibrant graphics and sharp branding, helping products stand out in an increasingly competitive pet care market.

GROOMING, HYGIENE & LIQUID WELLNESS

RANGE

FROM SHAMPOO TO EAR CLEANER

GROOMING, HYGIENE & LIQUID WELLNESS *solutions*

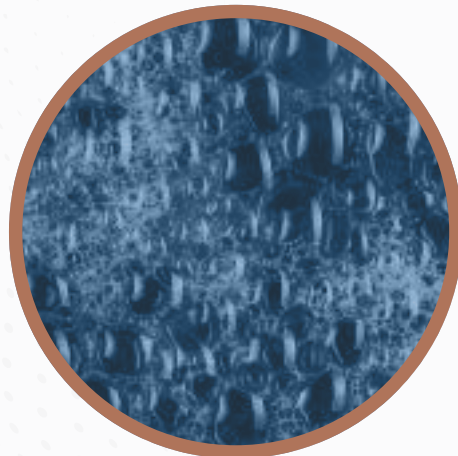

Packaging designed for **grooming and liquid pet care formulations**.

From nourishing shampoos and conditioning sprays to coat oils, paw treatments, ear cleaners and liquid wellness supplements, today's pet care liquids demand packaging that is both practical and professional.

Products in this sector are handled regularly, dispensed repeatedly and expected to maintain product integrity from first use to last.

The right packaging must therefore offer durability, secure closure compatibility, easy pouring or controlled dispensing, and a clean shelf-ready appearance that reflects the quality of the formulation inside.

Shampoo to supplements

Pont Packaging Group supplies a **wide range of glass and plastic bottles suitable for grooming, hygiene and wellness liquids, with matching trigger sprays, pumps, tamper-evident closures and dosing options available**. Whether your focus is premium presentation, lightweight practicality or sustainable material choice, we help you find the right liquid packaging solution.

A wide range of products suitable for:

- ✓ Grooming shampoos
- ✓ Coat sprays
- ✓ Liquid supplements
- ✓ Paw & hygiene care

DOSING, REFILL & PROFESSIONAL USE

RANGE

FROM SYRUPS TO SUPPLEMENTS

DOSING, REFILL & PROFESSIONAL USE *solutions*

Packaging designed for **controlled dispensing, larger volumes and specialist applications.**

From measured liquid supplements and treatment products to refill packs and professional-use formulations, specialist pet care products often require packaging that prioritises accuracy, durability and ease of use.

Products in this sector are frequently supplied in larger volumes, used in professional environments or require controlled dispensing to ensure the correct dosage is delivered every time.

The right packaging solution must therefore combine product protection, practical handling and reliable dispensing performance, while maintaining a professional appearance that reflects the quality of the product inside.

1-neck dosing bottle

A wide range of products suitable for:

- ✓ Liquid supplements
- ✓ Nutritional syrups
- ✓ Veterinary products
- ✓ Concentrated formulations
- ✓ Refill packs
- ✓ Professional pet care products

Pont Packaging Group supplies a **specialist packaging solutions for measured dispensing, larger volume products and professional-use applications, with child-resistant, tamper-evident and dosing closure options available.**

Whether your focus is dosage accuracy, product security or efficient handling, we help you find the right packaging solution.

> Helping brands deliver both convenience and consumer reassurance.

1-NECK & 2-NECK DOSING BOTTLES PET/HDPE

Controlled dispensing for liquid care products

Pont's 1-neck and 2-neck Dosing Bottles are designed for liquid pet wellness, feed supplements and equine care products where accurate measured dispensing is essential.

Featuring integrated chamber dosing functionality, they allow users to measure and pour the correct quantity with confidence.

Manufactured from durable food grade plastic, these bottles combine ease of use, product protection and professional presentation across a range of applications.

- Key features:**
- ✓ Integrated measured-dose functionality for accurate dispensing
 - ✓ Ideal for equine syrups, liquid supplements and specialist care products
 - ✓ Durable food-grade construction for repeated everyday use
 - ✓ Secure closure compatibility for leak resistance and product protection
 - ✓ Professional healthcare-style presentation with strong labelling area

GLASS PACKAGING FOR PREMIUM PRODUCTS

RANGE

FROM POWDERS TO NUTRITION

GLASS, PACKAGING FOR PREMIUM PRODUCTS *solutions*

Packaging designed for **high-value pet wellness, supplement and nutritional products**.

For premium pet care brands, packaging plays an important role in communicating quality, trust and product value. Glass packaging offers a distinctive look and feel that helps products stand out on shelf while providing the premium appearance increasingly sought by pet owners.

From specialist nutritional powders and wellness blends to high-end supplements and functional products, glass packaging combines product protection with elevated presentation. Its weight, clarity and premium finish create a strong perception of quality that supports premium brand positioning.

The right glass packaging solution should therefore offer both practical performance and visual appeal, helping brands create packaging that reflects the quality of the product inside.

Elevating pet wellness packaging

A wide range of products suitable for:

- ✓ Nutritional powders
- ✓ Wellness blends
- ✓ Premium supplements
- ✓ Functional pet products
- ✓ Specialist formulations
- ✓ High-value nutritional products

Pont Packaging Group supplies a **range of premium glass packaging solutions for pet wellness brands, combining excellent product protection with elevated shelf appeal and strong branding opportunities.**

Whether your focus is premium presentation, product quality perception or creating a distinctive retail presence, we help you find the right packaging solution.

> The Powder Jar combines practical durability with excellent labelling space, helping pet care brands create a clear, professional retail presentation.

POWDER JAR GLASS

Wide-neck jars for nutritional powders and dry blends

The Powder Jar range is designed to provide a dependable and user-friendly packaging solution for premium pet nutritional powders, supplement blends and dry wellness formulations.

Its generous wide-mouth opening allows efficient filling and easy scooping, while the broad stable body ensures convenient repeated access for the end user. This makes it particularly suitable for powdered joint support supplements, gut health blends, protein toppers, dental powders and other daily nutritional products. Manufactured from lightweight food-grade glass.

SOLUTIONS

SUSTAINABLE PACKAGING

for pet wellness brands

Sustainability is becoming an **increasingly important part of premium pet care product development.**

As consumers place greater value on responsible sourcing, recyclable materials and reduced environmental impact, packaging choices now play a key role in how pet wellness brands position themselves in the market.

Securipac container

Pont sustainable options include:

- ✓ Recycled PET (rPET)
- ✓ Recycled HDPE
- ✓ Bio-based HDPE
- ✓ Glass packaging
- ✓ Carbon black-free materials
- ✓ Lightweight packaging design
- ✓ Recyclability guidance

Powder jar glass

Pont Packaging Group works closely with customers to identify practical packaging solutions that support both performance and sustainability, helping brands make informed material choices without compromising product protection or presentation.

Our range includes a growing number of options in recycled PET, recycled HDPE, bio-based HDPE, glass and carbon black-free materials, alongside packaging designs created to support easier recycling and reduced material use.

Whether you are looking to improve recyclability, reduce virgin plastic content or move towards lighter and more responsible packaging formats.

> Our team can help guide the right solution for your product.

PARTNER WITH US

WHY PARTNER WITH US? *at Pont Packaging Group*

Choosing the right packaging is about **more than selecting a container.**

It is about finding a packaging partner that understands your product, your market, your sustainability goals and the practical demands of your supply chain.

Pont Packaging Group supports premium pet wellness and grooming brands across Europe with a broad range of stock packaging solutions backed by technical advice, sustainable material options and fast reliable delivery.

From liquid dosing bottles and grooming sprays to supplement jars, powder containers and specialist secure packaging, we help customers identify the right format, closure and material combination for every application.

With decades of packaging expertise, a Europe-wide warehouse network and a flexible sample service, Pont makes it easier to bring practical, professional pet care packaging solutions to market.

We do not just supply packaging.
We find solutions.
